The screenshot displays a NeXT workstation interface with several overlapping windows:

- File Viewer:** Shows a file system with folders like 'marc', 'NextApps', 'monolith', 'NextLibrary', and 'Package'. A list of files is visible, including 'LocalApps', 'Mailboxes', 'Fonts', 'Keyboards', 'Packages', 'Sounds', 'Extended Standard', and 'ThirdParty'.
- SoftPC:** A window titled 'SoftPC' containing a pie chart with segments labeled with percentages: (10.2%), (8.5%), (10.6%), (14.5%), (16.4%), (18.5%), (6.4%), and (10.6%). The status bar at the bottom of this window says 'Frozen' and 'Num Lock SoftPC®'.
- Database Application:** A window titled 'Database file' with options like 'Format for Screen Query', 'Catalog View', and 'Quit dBASE III PLUS'. The status bar at the bottom says 'ASSIST' and 'Move selection bar - ↑. Select - ←. Leave menu Select a database file.'.
- Spreadsheet:** A window titled 'Metropolis Development Corp' showing a table with columns A-F and rows 1-20. The data includes purchase dates, shares, prices, commissions, costs, and profit/loss.

The system tray on the right side of the desktop shows the time '11:15 AM', the date 'THU 27 JUN', and various application icons including 'WordPerfect', 'Lotus', and 'Culture Shock'.

Many NeXT installations run **PRODIGY** using SoftPC to control their serial modem.

Run MS-DOS and NeXT applications side-by-side. Cut and Paste between them.

The image shows a NeXT desktop environment with two windows. The top window is a spreadsheet with columns B1 through B6 and rows A1 through A10. The bottom window is titled 'SoftPC' and shows a DOS-style spreadsheet for 'Metropolis Development Corp' with columns A through F and rows 1 through 10.
