Image Agent

Non-native image files conversion application for NEXTSTEP™

With Image Agent users can simply drag and drop non-native image files directly into NEXTSTEP applications, such as Diagram! 2, TIFFany, WetPaint, Create, Pages, and have the images instantly appear. Image Agent transparently performs the image conversion as if it were part of the actual application in use.

Image Agent recogniszes many filename extensions for any given format. Supported image formats include: TIFF, GIF, PS, EPS, TARGA, PICT, MacPaint, PCX, DCX, Windows BMP, MTV, IFF/ILBM, Sun Raster, JPEG (JFIF), XWD, XBM and others. Image Agent is included free with Pixel Magician application.

Requires NEXTSTEP Release 3.1 or higher. Now shipping in Multi-Architecture Binary (MAB) format.
